## Fuel Deposit

At the start of your cruise you will be informed how much the hourly charge for fuel will be. The meter displaying the current engine hours will be shown to you and recorded.

Before your departure, you must leave a fuel deposit, payable in local currency, and at the end of your cruise you will have to pay for any additional fuel used or will be refunded the difference.

Fuel deposit per destination:

Cruise duration	Deposit payable upon arrival at the base		
	Rest of Europe	England & Scotland	Canada
up to 4 nights	€ 150	£ 125	CA\$ 200
for 5 - 6 nights	€ 175	£ 150	CA\$ 250
for 7 - 10 nights	€ 275	£ 225	CA\$ 400
for 11 - 14 nights	€ 400	£ 325	CA\$ 550
for 15 nights and more	€ 500	£ 425	CA\$ 660

## **Cost of Fuel**

Your boat is supplied with a full tank of diesel. You will not normally need to refuel during your holiday. At the end of your holiday, we will calculate the fuel you have used based on the amount of hours your engine has been running. This is then payable locally, **in local currency** before you leave

Our fuel charges include the use of the onboard gas supply as well as general engine wear & tear. The cost, per engine hour, is calculated using local market rates and is subject to fluctuations in diesel prices. As such, the prices are approximate and are intended as a guide only. The price also varies depending on boat type and the cruising region.

### **Generator fuel**

- Italy: We charge separately for generator fuel. It is charged at 50% of the engine hourly prices (Only: Vision-models, Mystique and Royal Mystique)
- Everywhere else, generator fuel is included in the above fuel prices.
