LE BOAT DIESEL POLICY

ALL price adjustments of diesel in Le Till must be properly explained with accurate "REASON" category selected and additional notes keyed in as appropriate
Fuel deposits must be taken as a payment (see Le Till procedures)

The Base Manager is responsible to ensure the current and correct pricing is being applied to diesel sales (please spot check pricing after price updates)

Private boat diesel sales - must be charged strictly at set per litre price in this document and can only be sold through EU certified pumps

Manual amendments to pricing may be needed to litre pricing in France if your base pricing differs from €1.65 - please correct by over-writing default figure

Generator Fuel (Vision, Mystique & Royal Mystique only) In Italy, generator fuel is charged at 50% of engine hourly prices

Everywhere else, generator fuel is inclusive of hourly prices.

EXCEPTION - For Vision Marlow & Porter & Haylett built Royal Mystique, Base Managers are authorised to make an allowance/discount on engine hours

Discounts applied to owners, staff and for customer relations reasons must be in strict accordance with company policy and Le Till procedures - accurate reasons for adjusting the price must be given in Le Till

Staff bookings and Le Boat owners are entitled to special treatment on fuel:

Certified Diesel Pump - where present, charge for usage in litres at price stated on this sheet for private boat sales

If NO certified Diesel Pump - the hourly price can be discounted as follows:

France / Holland / Begium hourly price discount is 35%

Germany hourly price discount is 20%

No discount on Italy Franchise diesel

Marketing / Journalist / VIP bookings - booking details in neptune / sent via email will indicate how diesel should be charged, in line with one of the following 3 tiers

Tier 1 If complimentary diesel applies, this will be authorised in advance and booked in Neptune as a package so inclusive hours will be applied (thus no fuel cost at the end base)

Tier 2 Please charge fuel in line with the owners and staff booking discount as above and give the reason

Tier 3 Charge as any normal customer i.e. full hourly rate for engine hours

Le Till will always charge the customer the hourly price at check in - even if they check out after a price change has been made

Fuel deliveries, most recent cost price p/litre and local public diesel prices should be returned promptly each month upon request from the Operations Administrator

Any questions or queries from bases on diesel pricing to the Operations Director please

Only the Operations Director or Revenue Management Director can approve amendments to diesel pricing - a monthly review will be conducted

This price list will be updated Monthly and re-circulated
