KOS Base

 Welcome on board

Prior to your arrival at base

Please make sure that we have received the following documents and information which are required the latest one week prior to your embarkation.

In case of late arrival

Our staff will wait for you until sunset. If your arrival is later than this, your yacht will be ready and unlocked, so you can board alone finding the keys on the chart table.

Complete bedding and towels sets will already be left inside the yacht.

Briefing and check-in procedures will take place the next morning.

In such cases we would suggest pre-ordering your provisions through our provisioning service.

In case you will face any difficulty or problem upon arrival at the yacht, please do not hesitate to contact our technical support.

Provisioning

Supermarket is located inside the marina and delivery service can be provided.

A bigger supermarket can be found outside the marina within walking distance (300m).

Pre-ordered provisioning service available upon request. Please contact us for our provisioning list.

Facilities

Hot water showers, toilets and laundry are located inside the marina.

Water and electricity supply available on the pier.

Motorbike / car hire and ATM cash point can be found exactly outside the marina.

A café - bar, as well as a restaurant are located inside the marina.

KOS Base

 Welcome on board

Check-in procedure

Check-in procedure has to be performed with the Skipper only, and involves 2 steps:

Briefing / Documentation
at Kekeris Yachts welcome desk

Inventory list /
Technical inspection of the yacht

Prior to your embarkation you are kindly requested to provide to our base manager all required documents. After briefing we will take care of all necessary procedures regarding authorization of embarkation from the port authorities.

The payment of security deposit, as well as of obligatory and optional extras, will be processed during briefing.

For the check in procedure you will be provided with inventory list and acceptance statement, so you can check and confirm the equipment delivered with the yacht and her general condition. Our base staff will demonstrate to you all functional / operational features of the yacht and her equipment.

For any additional information you may need, please contact our base manager.

Check-out procedure

Check-out procedure will take place upon your return to base, and involves 3 steps:

Mooring /
refilling with diesel

Technical inspection /
Diver's underwater check

Deposit's release
procedure - *where
applicable*

Upon your return, before entering the marina, you should first refill the yacht's fuel tank at Kos marina fuel station. Then, you may enter and moor the yacht at the indicated berth.

The check-out procedure will be performed by our technicians, who will come on board with your permission, in order to inspect the yacht and her equipment. The yacht will also be checked underwater by professional diver. It is suggested that the skipper should be present during the whole check out procedure, so as to avoid any inconvenience.

Please kindly note that this inspection is detailed, as we need to make record of any sort of problem, in order to assure that the yacht will be in perfect condition also for the following charter. For the above mentioned reason, if you have personally noticed any malfunction during your trip (even minor ones), please be so kind to advise our staff promptly.

Check out procedure is being finalised by releasing your security deposit, once the technical inspection and the underwater check have been processed. In case of damages or losses, our base manager will inform you in detail regarding the necessary steps. If other deposit types have been selected during booking procedure, the respective terms will be applicable and the necessary steps will be followed.
