Pto. Colom

In this small fishing village, one of the largest and few remaining natural harbours in Mallorca, the summer is spent in the peaceful atmosphere of chats in the cool air, bathing in paradisiacal coves and walks by the sea.

The lighthouse of Pto.colom, lit for the first time in 1863, is located on the highest part of the cliff of Sa Punta, it is a symbol of the city and its silhouette in the distance is very evocative.

Portocolom, a colourful town in Mallorca and an essential visit on the island.
